TTY (202) 418-2555

**Report No. SAT-01539**

**Friday March 26, 2021**

## **Satellite Policy Branch Information**

### **Space Station Applications Accepted for Filing**

The applications listed below have been found, upon initial review, to be acceptable for filing. The Commission reserves the right to return any of the applications if, upon further examination, it is determined that the application is not in conformance with the Commission's rules or its policies. Consideration of each satellite application in this Public Notice may depend on the Commission's action on another satellite application earlier in the queue. Petitions, oppositions, and other pleadings filed in response to this notice should conform to Section 25.154 of the Commission's rules, unless otherwise noted. 47 C.F.R. § 25.154.

**SAT-MPL-20210209-00019**    E S3055    Eutelsat S.A.  
Date Filed: 02/09/2021 10:41:00:15000  
Modification to PDR/PPL

Eutelsat S.A. seeks modification of the grant of market access for its EUTELSAT 139 West A space station at the 139.2° W.L. orbital location to expand the service area of the satellite and add additional frequencies. Specifically, Eutelsat requests modification of its grant of market access to provide fixed-satellite service (FSS), including to earth stations in motion (ESIMs), via EUTELSAT 139 West A at 139.2° W.L. using the following additional frequency bands: 10.7-10.95 GHz, 11.2-11.45 GHz (space-to-Earth); and 12.98-13.25 GHz (Earth-to-space). Eutelsat also seeks modification of its grant of market access for EUTELSAT 139 West A to add a new South Pacific beam that would provide FSS using the 10.95-11.2 GHz and 12.5-12.75 GHz (space-to-Earth); and 14.0-14.5 GHz (Earth-to-space) bands. Eutelsat requests waiver, to the extent necessary, of Section 2.106 of the Commission's rules, note NG52, which limits use of certain frequency bands by geostationary orbit FSS satellites to international systems.
